

Your Name:

Homework for Monday, September 9, 2019.

10 points.

A. (5 minutes). What do plants need to survive?

B. (6 minutes) What do people need for survival and for beyond survival – the good life?

C. (9 minutes) Pick one crop (not maize [corn] and not livestock) and go online and come up with two interesting facts about that crop. Monday will start the origins of agriculture so you might want to think a little about that. **The online sheet is much easier to read if you blow it up to 200%.**
